Second Assignment Submission Details: Due 31st August 2015

You need to submit, via the Assignment Submission link on the Assessment page of Blackboard for this unit, a zip file containing the project folder for your program. Do not delete any files which Visual Studio has created in your project folder. In the same directory of the Solution file, include the Second Assignment CRA document, not a pdf copy of the document.

Be sure to rename the CRA document, FamilyName StudentID CRA.docx to be your family name and student id, for example: Bloggs 8439561 CRA.docx

This zip file is to be named **Second.zip**

The submission link which is the actual title, has the following image beside it:

Second Assignment

Final Check: After you have zipped (compressed) your project folder into **Second.zip** copy the zip file to another location on your computer and then extract the project folder from the zip file and make sure that you can execute your project. This check will ensure that the tutors will be able to run your program, after they have extracted the project folder from the zip file.

This all may sound like a "no-brainer" but some students for their first assignment submitted a zip file with some files missing such as the actual source code (the .cs files) and in their place was a shortcut to the real source file. So when the tutor tries to run your program, it fails.

It is recommended that you upload your file to Blackboard from a lab at QUT and well before sometime late on the Monay afternoon or night. Inability to access Blackboard from home is not a sufficient reason for submitting the assignment late.

In accordance with QUT's policy on Late assignments and extension, it your assignment is not submittted by the due date and you have not been given an extension it will not be marked and will receive 0%.

http://www.student.qut.edu.au/studying/assessment/late-assignments-and-extensions

Requests for an extension, see information on "How to apply" in the above link. Do not email me for an extension, I am unable to grant an extension.

Mike Roggenkamp.
